## FOR IMMEDIATE RELEASE

**Date:** January 14, 2009

**Contact:** Jason Miller  
Senior Civil Engineer  
(864) 467-4400

## TEMPORARY CLOSURE ON EAST BROAD STREET SCHEDULED FOR JANUARY 20 - MARCH 27

**(Greenville SC)** Weather permitting, both lanes of East Broad Street, beginning at Dr. David C. Francis Street and extending to McDaniel Avenue, will be temporarily closed beginning Tuesday, January 20 for infrastructure improvements. This temporary road closure will be in effect weekdays during construction. Unless precluded by safety hazards, the closed segment will be reopened on weekends.

Dr. David C. Francis Street and McDaniel Avenue will remain open during construction. Access to 315 East Broad Street will be maintained when traveling eastbound on East Broad Street. Detour signs will be posted and westbound motorists from McDaniel Avenue are encouraged to follow the detour to McBee Avenue to Dr. David C. Francis Street and back to East Broad Street to bypass the construction area. Additional, undesignated alternate routes are available.

Construction of the second phase of the East Broad Street Project is expected to be completed in approximately ten (10) weeks, weather permitting. Motorists traveling on East Broad Street and McDaniel Avenue are asked to use caution and to be aware of traffic control signage and flagmen.

For more information about the road closure or the project, contact Jason Miller, Senior Civil Engineer, at (864) 467-4400.
